

### **Tazewell County Highway Department**

#### **AUTHORIZATION TO BID FORM**

Addenda will be published to our Bid Letting page in the same manner as the plans and specifications. It is the sole responsibility of the plan holders to periodically check the website for plan addenda.

## ALL BIDDERS PLANNING TO PLACE A BID MUST FILL OUT THIS FORM TO BE AUTHORIZED TO BID.

- This form must be completed, signed and either faxed to (309) 925-5533 or emailed to jsciortino@tazewell-il.gov.
- Failure to submit this completed form will result in the bid not being accepted.
- Contractors may verify we have received their Authorization to Bid form by checking the Plan Holders List found under the corresponding letting date.
- If an email address is provided, a Notice of Addenda will be sent when updates are available.
- Bid results are typically posted by noon on the day of the letting and are preliminary until approved by the County Board on the last Wednesday of the month.

#### Affidavit of Availability

For the Letting of 05/20/24

Bureau of Construction 2300 South Dirksen Parkway/Room 322 Springfield, IL 62764 Instructions: Complete this form by either typing or using black ink. "Authorization to Bid" will not be issued unless both sides of this form are completed in detail. Use additional forms as needed to list all work.

#### Part I. Work Under Contract

List below all work you have under contract as either a prime contractor or a subcontractor. It is required to include all pending low bids not yet awarded or rejected. In a joint venture, list only that portion of the work which is the responsibility of your company. The uncompleted dollar value is to be based upon the most recent engineer's or owners estimate, and must include work subcontracted to others. If no work is contracted, show NONE.

#### Part II. Awards Pending and Uncompleted Work to be done with your own forces.

List below the uncompleted dollar value of work for each contract and awards pending to be completed with your own forces. All work subcontracted to others will be listed on the reverse of this form. In a joint venture, list only that portion of the work to be done by your company. If no work is contracted, show NONE.

| The following Special Provision supplement the "Standa  | rd Specifications for Road    | and Bridge Con    | struction", adopted           |
| January 1, 2022 , the   | e latest edition of the "Manu | ual on Uniform T  | raffic Control Devices for    |
| Streets and Highways", and the "Manual of Test Proced   | ures of Materials" in effect  | on the date of ir | nvitation of bids, and the    |
| Supplemental Specification and Recurring Special Provi  | sions indicated on the Che    | ck Sheet includ   | ed here in which apply to and |
| govern the construction of the above named section, and in case of conflict with any parts, or parts of said Specifications, the said |                               |                   |                               |
| Special Provisions shall take precedence and shall gove   | ern.                          |                   |                               |

<u>DESCRIPTION OF WORK:</u> The work of this section consists of the construction of a Bituminous Surface Treatment, Class A-1 over existing bituminous surfaces.

<u>PROPOSAL GUARANTY:</u> A proposal guaranty in the proper amount, as specified in the BLRS Special Provision for Bidding Requirements and Conditions for Material Proposals, will be required.

TRAFFIC: The roads shall remain open for both local and through traffic.

TRAFFIC CONTROL PLAN: Traffic Control shall be in accordance with the applicable sections of the "Standard Specifications for Road and Bridge Construction", the applicable guidelines contained in the "Manual on Uniform Traffic Control Devices for Streets and Highways", these Special Provisions, and any special details and Highway Standards contained herein and in the plans.

Special attention is called to Articles 107.09, 107.14, 107.15 and Section 1106 of the "Standard Specifications for Road and Bridge Construction" and the Traffic Control Standards 701011-04, 701306-04 and 701901-09.

The Contractor shall post the construction routes with "LOOSE GRAVEL" and "SPEED LIMIT 35" signs immediately prior to seal coat operations in accordance with applicable articles of Division 700 of the Standard Specifications. The signs shall be placed at the start of the work, near intersecting roadways and then at an average spacing of 0.50 miles. These signs may be removed as soon as the final sweeping operation has been completed or at the direction of the Engineer.

The presence of temporary traffic control drawings or standards in the proposal or contract, whether a pay item or not, does not relieve the Contractor of his obligation to the public. The Contractor shall provide, if conditions warrant by the Engineer, all protection deemed necessary beyond that shown in the proposal or Special Provisions.

The Contractor shall be responsible for all traffic control operations as follows:

- 1. The Contractor shall provide two flaggers and two pickup trucks, each equipped with a mounted yellow flashing light, a mounted "Road Closed" sign (R11-2), a mounted "Fresh Oil" sign (W21-2), and a "Flagger Traffic Control Sign" (Stop/Slow paddle). These flaggers shall be placed at the intersection immediately ahead of and behind the seal coat operation to control the traffic. Flaggers must hold the "Flagger Traffic Control Sign" (Stop/Slow paddle).
- 2. The Contractor must equip all of their oil distributors, chip spreaders and rollers with a mounted yellow flashing light.
- 3. The Contractor shall equip all of their rollers with a "Fresh Oil" sign (W21-2).

| Local Public Agency     | County   | Section Number |
|-------------------------|----------|----------------|
| Groveland Road District | Tazewell | 24-08000-01-GM |

4. The Contractor shall place a "Road Closed Ahead" sign (W20-3) 750 feet prior to the intersection where the required pickup truck is controlling traffic if the pickup truck is not visible at that point to oncoming traffic.

Basis of payment: All Traffic Control shall be paid for at the contract-lump sum price for TRAFFIC CONTROL AND PROTECTION, (SPECIAL).

BITUMINOUS SURFACE TREATMENT, CLASS A: This work shall conform to the applicable portions of Check Sheet #LRS9, Special Provisions for Bituminous Surface Treatments, of the "Supplemental Specifications and Recurring Special Provisions", with the following exceptions and inclusions:

MATERIALS- Add the following:

The Bituminous Materials shall be CRS-2P where specified on the quantity sheet.

The Seal Coat Aggregate shall be CA-16 or Fractured CA-16 where specified on the quantity sheet. The Fractured CA-16 shall be a gradation with an angularity of 90% or better.

APPLICATION: Rates per Square Yard (Estimated)

When using CRS-2P for Bituminous Surface Treatment, Class A-1:

Polymerized Bituminous Materials- Seal Coat

- 0.44 gallon (CA-16 or FRACTURED CA-16)

Seal Coat Aggregate

- 27 pounds (CA-16 or FRACTURED CA-16)

EQUIPMENT- Add the following:

- (a) Rollers- Rollers shall include both a Pneumatic-Tired Roller meeting the requirements of Article 1101.01 (a) and either a Tandem Roller or a Three Wheel Roller meeting the requirements of Article1101.01 (e).
- (b) Mechanical Sweeper- The mechanical sweeper shall be a vacuum type which collects the loose material that is swept from the surface meeting the requirements of Article 1101.03.

SEQUENCE OF WORK: Change item (a) as follows: Mechanical power sweeping of surface is required prior to Bituminous Surface Treatment, Class A-1 application. Where noted below, a pick-up sweeper shall be used under the following provisions:

- 1) Prior to placement of Bituminous Surface Treatment, Class A-1 on the following routes for this project noted below. Please see quantity sheet for locations.
- > TR 672 Nadine Ct., TR 673 Nora Ln. and TR 673 Warren Pl.
- Shall be included in the cost of the project.

SEAL COAT- Add the following:

Final sweeping shall be completed by Groveland Road District.

Basis of Payment: This work will be paid for at the contract unit price per ton for POLYMERIZED BITUMINOUS MATERIALS (SEAL COAT) CRS-2P, SEAL COAT AGGREGATE (CA-16), and SEAL COAT AGGREGATE (FRACTURED CA-16).

| Local Public Agency     | County   | Section Number |
|-------------------------|----------|----------------|
| Groveland Road District | Tazewell | 24-08000-01-GM |

<u>WEIGHT LIMITS:</u> Legal weight limits shall be observed on Groveland Road District roads and the structures they contain at all times.

<u>PRE-CONSTRUCTION MEETING:</u> A pre-construction meeting for this Section is required between the Contractor, Highway Commissioner and Resident Engineer.

<u>LIQUIDATED DAMAGES:</u> Liquidated damages shall be assessed in accordance with Article 108.09 of the "Standard Specifications for Road and Bridge Construction".

**TIME SCHEDULE:** The specified completion date for this project is August 15, 2024.

WAGES OF EMPLOYEES ON PUBLIC WORKS: Add the following to paragraph #1 of the Special Provision for Wages of Employees on Public Works, Check Sheet LRS#12: Prevailing wage rates may be obtained from the IDOL (Illinois Department of Labor) website at:

https://www2.illinois.gov/idol/Laws-Rules/CONMED/Pages/Rates.aspx

#### BDE SPECIAL PROVISIONS For the April 26 and June 14, 2024 Lettings

The following special provisions indicated by a "check mark" are applicable to this contract and will be included by the Project Coordination and Implementation Section of the Bureau of Design & Environment (BDE).

Highlighted items indicate a new or revised special provision for the letting.

An \* indicates the special provision requires additional information from the designer, which needs to be submitted separately. The Project Coordination and Implementation Section will then include the information in the applicable special provision.

The following special provisions are in the 2024 Supplemental Specifications and Recurring Special Provisions.

| File Name | Special Provision Title         | New Location(s)            | <u>Effective</u> | Revised |
|-----------|---------------------------------|----------------------------|------------------|---------|
| 80436     | Blended Finely Divided Minerals | Articles 1010.01 & 1010.06 | April 1, 2021    |         |
| 80440     | Waterproofing Membrane System   | Article 1061.05            | Nov. 1, 2021     |         |

#### **COMPENSABLE DELAY COSTS (BDE)**

Effective: June 2, 2017 Revised: April 1, 2019

Revise Article 107.40(b) of the Standard Specifications to read:

- "(b) Compensation. Compensation will not be allowed for delays, inconveniences, or damages sustained by the Contractor from conflicts with facilities not meeting the above definition; or if a conflict with a utility in an unanticipated location does not cause a shutdown of the work or a documentable reduction in the rate of progress exceeding the limits set herein. The provisions of Article 104.03 notwithstanding, compensation for delays caused by a utility in an unanticipated location will be paid according to the provisions of this Article governing minor and major delays or reduced rate of production which are defined as follows.
  - (1) Minor Delay. A minor delay occurs when the work in conflict with the utility in an unanticipated location is completely stopped for more than two hours, but not to exceed two weeks.
  - (2) Major Delay. A major delay occurs when the work in conflict with the utility in an unanticipated location is completely stopped for more than two weeks.
  - (3) Reduced Rate of Production Delay. A reduced rate of production delay occurs when the rate of production on the work in conflict with the utility in an unanticipated location decreases by more than 25 percent and lasts longer than seven calendar days."

Revise Article 107.40(c) of the Standard Specifications to read:

- "(c) Payment. Payment for Minor, Major, and Reduced Rate of Production Delays will be made as follows.
  - (1) Minor Delay. Labor idled which cannot be used on other work will be paid for according to Article 109.04(b)(1) and (2) for the time between start of the delay and the minimum remaining hours in the work shift required by the prevailing practice in the area.
    - Equipment idled which cannot be used on other work, and which is authorized to standby on the project site by the Engineer, will be paid for according to Article 109.04(b)(4).
  - (2) Major Delay. Labor will be the same as for a minor delay.

Equipment will be the same as for a minor delay, except Contractor-owned equipment will be limited to two weeks plus the cost of move-out to either the

Contractor's yard or another job and the cost to re-mobilize, whichever is less. Rental equipment may be paid for longer than two weeks provided the Contractor presents adequate support to the Department (including lease agreement) to show retaining equipment on the job is the most economical course to follow and in the public interest.

(3) Reduced Rate of Production Delay. The Contractor will be compensated for the reduced productivity for labor and equipment time in excess of the 25 percent threshold for that portion of the delay in excess of seven calendar days. Determination of compensation will be in accordance with Article 104.02, except labor and material additives will not be permitted.

Payment for escalated material costs, escalated labor costs, extended project overhead, and extended traffic control will be determined according to Article 109.13."

Revise Article 108.04(b) of the Standard Specifications to read:

- "(b) No working day will be charged under the following conditions.
  - (1) When adverse weather prevents work on the controlling item.
  - (2) When job conditions due to recent weather prevent work on the controlling item.
  - (3) When conduct or lack of conduct by the Department or its consultants, representatives, officers, agents, or employees; delay by the Department in making the site available; or delay in furnishing any items required to be furnished to the Contractor by the Department prevents work on the controlling item.
  - (4) When delays caused by utility or railroad adjustments prevent work on the controlling item.
  - (5) When strikes, lock-outs, extraordinary delays in transportation, or inability to procure critical materials prevent work on the controlling item, as long as these delays are not due to any fault of the Contractor.
  - (6) When any condition over which the Contractor has no control prevents work on the controlling item."

Revise Article 109.09(f) of the Standard Specifications to read:

"(f) Basis of Payment. After resolution of a claim in favor of the Contractor, any adjustment in time required for the work will be made according to Section 108. Any adjustment in the costs to be paid will be made for direct labor, direct materials, direct equipment, direct jobsite overhead, direct offsite overhead, and other direct costs allowed by the resolution. Adjustments in costs will not be made for interest charges, loss of anticipated profit, undocumented loss of efficiency, home office overhead and unabsorbed overhead

other than as allowed by Article 109.13, lost opportunity, preparation of claim expenses and other consequential indirect costs regardless of method of calculation.

The above Basis of Payment is an essential element of the contract and the claim cost recovery of the Contractor shall be so limited."

Add the following to Section 109 of the Standard Specifications.

"109.13 Payment for Contract Delay. Compensation for escalated material costs, escalated labor costs, extended project overhead, and extended traffic control will be allowed when such costs result from a delay meeting the criteria in the following table.

| Contract Type      | Cause of Delay                                  | Length of Delay   |
|--------------------|---|---|
| Working Days       | Article 108.04(b)(3) or<br>Article 108.04(b)(4) | No working days have been charged for two consecutive weeks.  |
| Completion<br>Date | Article 108.08(b)(1) or Article 108.08(b)(7)    | The Contractor has been granted a minimum two week extension of contract time, according to Article 108.08. |

Payment for each of the various costs will be according to the following.

- (a) Escalated Material and/or Labor Costs. When the delay causes work, which would have otherwise been completed, to be done after material and/or labor costs have increased, such increases will be paid. Payment for escalated material costs will be limited to the increased costs substantiated by documentation furnished by the Contractor. Payment for escalated labor costs will be limited to those items in Article 109.04(b)(1) and (2), except the 35 percent and 10 percent additives will not be permitted.
- (b) Extended Project Overhead. For the duration of the delay, payment for extended project overhead will be paid as follows.
  - (1) Direct Jobsite and Offsite Overhead. Payment for documented direct jobsite overhead and documented direct offsite overhead, including onsite supervisory and administrative personnel, will be allowed according to the following table.

| Original Contract<br>Amount               | Supervisory and Administrative Personnel                                   |
|---|--|
| Up to \$5,000,000                         | One Project Superintendent   |
| Over \$ 5,000,000 - up to \$25,000,000    | One Project Manager, One Project Superintendent or Engineer, and One Clerk |
| Over \$25,000,000 -<br>up to \$50,000,000 | One Project Manager,<br>One Project Superintendent,<br>One Engineer, and   |

|                   | One Clerk                    |
|-------------------|------------------------------|
| Over \$50,000,000 | One Project Manager,         |
|                   | Two Project Superintendents, |
|                   | One Engineer, and            |
|                   | One Clerk                    |

- (2) Home Office and Unabsorbed Overhead. Payment for home office and unabsorbed overhead will be calculated as 8 percent of the total delay cost.
- (c) Extended Traffic Control. Traffic control required for an extended period of time due to the delay will be paid for according to Article 109.04.

When an extended traffic control adjustment is paid under this provision, an adjusted unit price as provided for in Article 701.20(a) for increase or decrease in the value of work by more than ten percent will not be paid.

Upon payment for a contract delay under this provision, the Contractor shall assign subrogation rights to the Department for the Department's efforts of recovery from any other party for monies paid by the Department as a result of any claim under this provision. The Contractor shall fully cooperate with the Department in its efforts to recover from another party any money paid to the Contractor for delay damages under this provision."

80384

#### REMOVAL AND DISPOSAL OF REGULATED SUBSTANCES (BDE)

Effective: January 1, 2024 Revised: April 1, 2024

Revise the first paragraph of Article 669.04 of the Standard Specifications to read:

"669.04 Regulated Substances Monitoring. Regulated substances monitoring includes environmental observation and field screening during regulated substances management activities. The excavated soil and groundwater within the work areas shall be managed as either uncontaminated soil, hazardous waste, special waste, or non-special waste.

As part of the regulated substances monitoring, the monitoring personnel shall perform and document the applicable duties listed on form BDE 2732 "Regulated Substances Monitoring Daily Record (RSMDR)"."

Revise the first two sentences of the nineteenth paragraph of Article 669.05 of the Standard Specifications to read:

"The Contractor shall coordinate waste disposal approvals with the disposal facility and provide the specific analytical testing requirements of that facility. The Contractor shall make all arrangements for collection, transportation, and analysis of landfill acceptance testing."

Revise the last paragraph of Article 669.05 of the Standard Specifications to read:

"The Contractor shall select a permitted landfill facility or CCDD/USFO facility meeting the requirements of 35 III. Admin. Code Parts 810-814 or Part 1100, respectively. The Department will review and approve or reject the facility proposed by the Contractor based upon information provided in BDE 2730. The Contractor shall verify whether the selected facility is compliant with those applicable standards as mandated by their permit and whether the facility is presently, has previously been, or has never been, on the United States Environmental Protection Agency (U.S. EPA) National Priorities List or the Resource Conservation and Recovery Act (RCRA) List of Violating Facilities. The use of a Contractor selected facility shall in no manner delay the construction schedule or alter the Contractor's responsibilities as set forth."

Revise the first paragraph of Article 669.07 of the Standard Specifications to read:

"669.07 Temporary Staging. Soil classified according to Articles 669.05(a)(2), (b)(1), or (c) may be temporarily staged at the Contractor's option. All other soil classified according to Articles 669.05(a)(1), (a)(3), (a)(4), (a)(5), (a)(6), or (b)(2) shall be managed and disposed of without temporary staging to the greatest extent practicable. If circumstances beyond the Contractor's control require temporary staging of these latter materials, the Contractor shall request approval from the Engineer in writing.

Topsoil for re-use as final cover which has been field screened and found not to exhibit PID readings over daily background readings as documented on the BDE 2732, visual staining or

odors, and is classified according to Articles 669.05(a)(2), (a)(3), (a)(4), (b)(1), or (c) may be temporarily staged at the Contractor's option."

Add the following paragraph after the sixth paragraph of Article 669.11 of the Standard Specifications.

"The sampling and testing of effluent water derived from dewatering discharges for priority pollutants volatile organic compounds (VOCs), priority pollutants semi-volatile organic compounds (SVOCs), or priority pollutants metals, will be paid for at the contract unit price per each for VOCS GROUNDWATER ANALYSIS using EPA Method 8260B, SVOCS GROUNDWATER ANALYSIS using EPA Methods 8270C, or RCRA METALS GROUNDWATER ANALYSIS using EPA Methods 6010B and 7471A. This price shall include transporting the sample from the job site to the laboratory."

Revise the first sentence of the eight paragraph of Article 669.11 of the Standard Specifications to read:

"Payment for temporary staging of soil classified according to Articles 669.05(a)(1), (a)(3), (a)(4), (a)(5), (a)(6), or (b)(2) to be managed and disposed of, if required and approved by the Engineer, will be paid according to Article 109.04."

80455

#### **VEHICLE AND EQUIPMENT WARNING LIGHTS (BDE)**

Effective: November 1, 2021 Revised: November 1, 2022

Add the following paragraph after the first paragraph of Article 701.08 of the Standard Specifications:

"The Contractor shall equip all vehicles and equipment with high-intensity oscillating, rotating, or flashing, amber or amber-and-white, warning lights which are visible from all directions. In accordance with 625 ILCS 5/12-215, the lights may only be in operation while the vehicle or equipment is engaged in construction operations."

#### SPECIAL PROVISION FOR INSURANCE

Effective: February 1, 2007 Revised: August 1, 2007

All references to Sections or Articles in this specification shall be construed to mean specific Section or Article of the Standard Specifications for Road and Bridge Construction, adopted by the Department of Transportation.

The Contractor shall name the following entities as additional insured under the Contractor's general liability insurance policy in accordance with Article 107.27:

| Groveland Road District |  |  |
|-------------------------|--|--|
| Tazewell County         |  |  |
|                         |  |  |
|                         |  |  |
|                         |  |  |
|                         |  |  |
|                         |  |  |
|                         |  |  |

The entities listed above and their officers, employees, and agents shall be indemnified and held harmless in accordance with Article 107.26.

## State of Illinois Department of Transportation Bureau of Local Roads and Streets

#### SPECIAL PROVISION FOR EQUIPMENT RENTAL RATES

Effective: January 1, 2012

All references to Sections or Articles in this specification shall be construed to mean a specific Section or Article of the Standard Specifications for Road and Bridge Construction, adopted by the Department of Transportation.

Replace Article 109.04(b)(4) with the following:

"(4) Equipment. For any machinery or special equipment (other than small tools) the use of which has been authorized by the Engineer, the Contractor will be paid according to the latest revision of "SCHEDULE OF AVERAGE ANNUAL EQUIPMENT OWNERSHIP EXPENSE" and latest index factor as issued by the Illinois Department of Transportation. The equipment should be of a type and size reasonably required to complete the extra work."

# State of Illinois Department of Transportation Bureau of Local Roads and Streets

# SPECIAL PROVISION FOR COARSE AGGREGATE FOR BITUMINOUS SURFACE TREATMENT

Effective: January 1, 2002 Revised: January 1, 2007

All references to Sections or Articles in this special provision shall be construed to mean specific Section or Article of the Standard Specifications for Road and Bridge Construction, adopted by the Department of Transportation.

This work shall be performed according to Section 403 and the following:

1004.01 <u>Materials</u>. Add the following to the gradation tables in subparagraph (c) of Article 1004.01:

| Coarse Aggregate Gradations                 |       |        |         |       |      |  |
|---|-------|--------|---------|-------|------|--|
| Sieve Size                                  |       |        |         |       |      |  |
| Percent Passing                             |       |        |         |       |      |  |
| Grad 12.5 mm 9.5 mm 4.75 mm 2.36 mm 1.18 mm |       |        |         |       |      |  |
| No.   | ½ in. | #4     | #8      | #16   |      |  |
| CA 20                                       | 100   | 92 ± 8 | 20 ± 10 | 5 ± 5 | 3 ±3 |  |

1004.03 <u>Coarse Aggregate for Hot-Mix Asphalt (HMA)</u>. Revise the first line of the table in subparagraph (c) of Article 1004.03 to read:

| Use               | Use Size/Application |          |
|-------------------|----------------------|----------|
| Class A-1, 2, & 3 | 3/8 in. (10 mm) Seal | CA 20 3/ |

Add the following note to the end of subparagraph (c) of Article 1004.03:

"3/CA16 or CM16 produced under the AGCS Program with a master band may be used if it meets the gradation requirements specified for CA20 in Article 1004.01(c)"

Amend the Aggregate Gradation Control System (AGCS) Policy Memorandum to add the following:

"CA 20 shall be produced under the AGCS program. However, the gradation bands may not be adjusted."

## State of Illinois DEPARTMENT OF TRANSPORTATION Bureau of Local Roads & Streets

#### SPECIAL PROVISION FOR EMULSIFIED ASPHALTS

Effective: January 1, 2007 Revised: February 7, 2008

All references to Sections and Articles in this Special Provision shall be construed to mean specific Sections and Articles in the Standard Specifications for Road and Bridge Construction adopted by the Department of Transportation.

Replace the table after Note 2 in Article 403.02 with the following:

|                                | Bituminous Materials Recommended for Weather Conditions Indicated                                     |  |  |  |
|--------------------------------|---|--|--|--|
| Type of Construction           | Warm<br>[15 °C to 30 °C]*<br>[(60 °F to 85 °F)]*  | Hot<br>[30 °C Plus]*<br>[(85 °F Plus)]*  |  |  |
| Prime                          | MC-30, PEP  | MC-30, PEP   |  |  |

| PG52-28                                 | 285 - 395          | 140 - 200 |  |  |
| RS-2, CRS-2                             | 110 - 160          | 45 - 70   |  |  |
| SS-1, SS-1h, CSS-1, CSS-1h              | 75 - 130           | 25 - 55   |  |  |
| SS-1hP, CSS-1hP                         | 75 - 130           | 25 - 55   |  |  |
| HFE-90, HFE-150, HFE-300                | 150 - 180          | 65 - 80   |  |  |
| HFP, CRSP, HFRS-2                       | 150 - 180          | 65 - 80   |  |  |
| E-2                                     | 85 - 190           | 30 - 90   |  |  |
| E-3                                     | 120 - 225          | 50 - 105  |  |  |
| E-4                                     | 165 - 270          | 75 - 130  |  |  |

#### Add subparagraph (g) to Article 1032.06:

(g) Penetrating Emulsified Asphalt (PEA). The penetrating emulsified asphalt shall meet the following requirements when tested according to AASHTO T59:

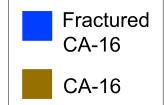

| Viscosity, Saybolt Fural @ 25°C (77°F),   | sec:     | 20 - 500                |
|---|----------|-------------------------|
| Sieve Test, retained on 850 μm (No. 20) sieve, maximum, Storage Stability Test, 1 day, maximum, | %:<br>%: | 0.10                    |
| Float Test @ 60°C (140°F), minimum,   | sec:     | 150                     |
| Stone Coating Test, 3 minutes,  | :        | Stone Coated Thoroughly |
| Particle Charge   | :        | Negative                |
| pH, minimum   | :        | 7.3                     |
| Distillation Test:  |          |                         |
| Distillation to 260°C (500°F) Residue, minimum  | %:       | 65                      |
| Oil Distillate by Volume, maximum   | %:       | 3                       |
| Test on residue from distillation:  |          |                         |
| Penetration @ 25°C (77°F), 100 g, 5 sec, minimum  | dmm:     | 300                     |

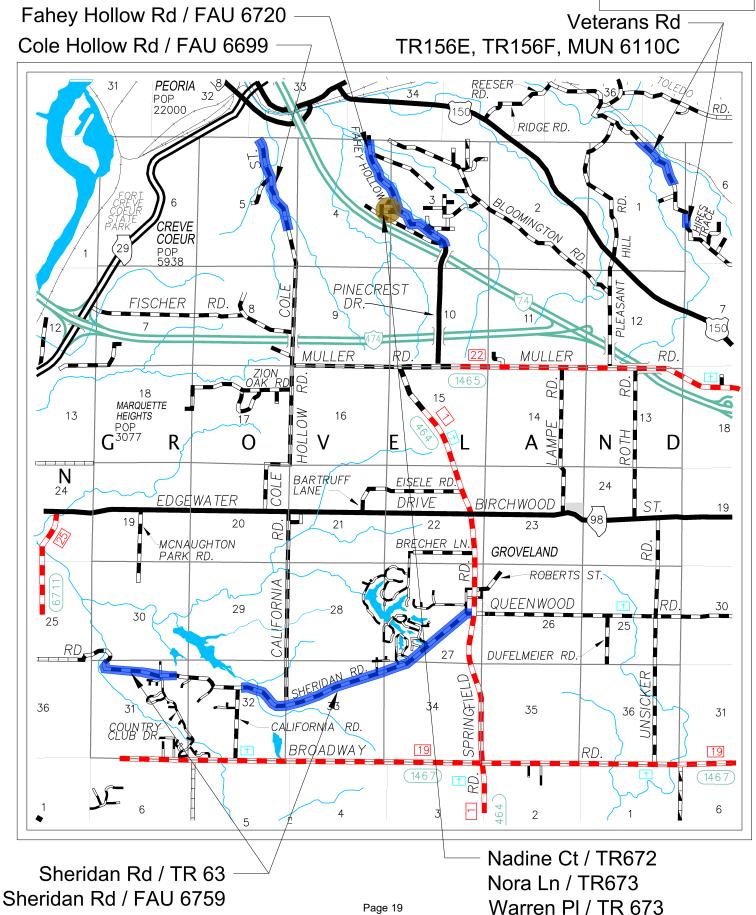

Replace the last sentence and table of Article 1032.06 with the following:

The different grades are, in general, used for the following.

| Grade  | Use                                |
|--|------------------------------------|
| SS-1, SS-1h, CSS-1, CSS-1h, HFE 90, SS-1hP, CSS-1hP              | Tack or fog seal                   |
| PEP  | Bituminous surface treatment prime |
| RS-2, HFE 90, HFE 150, HFE 300,<br>CRSP, HFP, CRS-2, HFRS-2, PEA | Bituminous surface treatment       |
| CSS-1h Latex Modified  | Microsurfacing                     |
