

TAZEWELL COUNTY

FY 2010

FINAL APPROPRIATION

DECEMBER 1, 2009~NOVEMBER 30, 2010

Tazewell County Board

David Zimmerman, Chairman of the Board
David A. Jones, County Administrator

December 1, 2009

The Honorable David Zimmerman, Chairman, and Tazewell County Board
Tazewell County
11 S. Fourth St., Suite 432
Pekin, IL 61554

Chairman Zimmerman and members of the Board:

The Final Fiscal Year 2010 appropriation for Tazewell County is contained herein. This document is the countywide spending plan for fiscal year 2010. This document serves as the primary planning tool for the operation and management of Tazewell County. Approving a budget is one of the most important decisions you make as an elected official; and given the economic conditions and other uncertainties, this budget more than any other in recent history required difficult decisions and some sacrifices as there are always more funding priorities than there are resources to pay for the priorities.

This budget includes the revenues and expenditures to maintain current levels of service provided to Tazewell County citizens. It includes significant investment in infrastructure yet at this time requires no new debt; it leverages outside sources of revenue for maximum return on local investment; and it maintains the long history of conservative spending by Tazewell County.

The Fiscal Year 2010 budget process, in a way, started with a letter in February to appointed and elected department heads, indicating the early deterioration of revenue sources. In that letter, department heads were told, "It is fully expected that Fiscal Year 2010 will be a challenging year from a financial perspective and shoring up now will better prepare us for what will likely be an arduous budget process." Eight months later, those words hold particularly true as most of the County's major revenue sources, in the months following the memo, began a downward slide. Departments generally responded swiftly. Delaying filling authorized positions, deferring more than \$100,000 of planned and budgeted capital projects and small yet meaningful efforts to reduce costs—like energy usage reduction efforts—have made a positive impact.

Despite what is currently a fragile if not anemic economy, Tazewell County, comparatively, is in somewhat better condition than many of its local government counterparts throughout the region and country. The last year has brought about the "perfect storm" of economic turmoil, with a slower housing market, much higher unemployment, layoffs and some business failures, reduced access to capital and borderline deflation. While these are all variables to watch closely, years of conservative

fiscal policies and practices and sound overall and department management have afforded the County the opportunity to, at least for now, to take mostly a non-structural approach to addressing its revenue shortfalls.

Management continued a conservative approach of estimating revenue for fiscal year 2010. Due to conservative estimates, department heads generally managing their budgets wisely, and management and the Board keeping mid-year, non-budgeted purchases to an absolute minimum, the General Fund balance has grown the past several years. That is the good news. The bad news is that it is unlikely to grow in Fiscal Year 2009 and, absent a recovery of consumption-based revenues, 2010 as well. While relatively small, identified uses of fund balance in economic downturns when reserves are sufficient are acceptable, management will continue to monitor this closely as a protracted downturn could, even in the short term, require the County to shift its focus from non-structural changes to more painful structural changes that affect service and staffing levels, wages and benefits.

Shown for the Fiscal Year 2010 budget is a projected use of fund balance of nearly \$1.4 million, inclusive of a \$754,000 contingency line item for unexpected expenditures. Revenues exceeding management projections and continued diligence by management and the Board in controlling costs could cover a major portion of this shortfall, but in the current economic climate, that is far from guaranteed. Many economists are projecting economic recovery in 2010, though a slow, methodical recovery seems more likely than a rapid return to pre-recession consumer spending levels. I also believe the fact that Central Illinois entered the recession later than some other parts of the country could mean that it exits it somewhat later than other regions. Maintaining an adequate fund balance is absolutely critical, particularly in funds with revenue prone to fluctuation or in funds that depend on property taxes as a primary or major source of revenue. Using conservative estimates to project revenue in the future, while simultaneously projecting expenditures as realistically as possible, will help ensure that Tazewell County maintains adequate fund balances and weather the storm in subsequent downturns, meet its ongoing liquidity obligations, provide interest income to individual funds, and have the financial resources to handle a protracted economic crisis or major emergency.

The Public Safety Sales Tax, a major revenue source for the General Fund, debt service fund, Social Security and IMRF (pension) funds, for example, began to soften and then decline sharply this fiscal year. We will not meet our budgeted target for this revenue source—receiving an estimated \$200,000 less than budgeted—and a further deterioration of 3% is projected for Fiscal Year 2010.

While the Tri-County region is holding its own despite a national housing slump, with homes, on average, selling above the market values based on their assessed values, a slowdown in new construction has certainly impacted our economy. New construction is important because its assessed value can be captured under the Property Tax Extension Limitation Law (PTELL), it provides construction and other jobs which provide stability to the local economy, injects consumption-based revenues into the economy, and construction in the unincorporated area also provides a modest amount of permit fee

revenue. While Tazewell County has experienced a slowdown in new construction, the economy—along with the General Fund budget—has been positively impacted by the development of Rail Splitter Wind Farm in south Tazewell County. This project has skewed local data in terms of revenue and construction activity.

Because Tazewell County relies significantly on consumer spending, as do many units of local government, bigger-picture trends must be monitored in order to ensure a sustainable, fiscally sound County government. All things considered, Tazewell County is fiscally healthy and its economic future looks reasonably solid. However, improvements in the national, regional and local economies, specifically employment, consumer confidence and the associated consumer spending patterns, are critical in the County's short-term financial performance. A lack of an economic rebound—particularly a double-dip recession—or reductions from the State threaten the County's ability to maintain service and staffing levels long term.

Major Budget Assumptions

Management used a number of assumptions in preparing the fiscal year 2010 budget. The assumptions are important in estimating both revenues and expenditures. The major assumptions include:

- Tazewell County will capture the inflationary growth and growth attributable to new property, inclusive of expiring enterprise zone abatements, allowed under the Property Tax Extension Limitation Law (PTELL). This will generate approximately \$181,041 in additional revenue across all levied funds. The property tax rate, based on preliminary equalized assessed value estimates and recommended levy levels, is projected to decrease from 44.69 cents per \$100 of assessed value to approximately 43.943 cents per \$100 of assessed value.
- Suspending the Planning Manager position in Community Development, an authorized and previously funded position, until the economy improves. No funding is included in the FY 2010 budget for this position, which is vacant.
- One FTE (Investigator position) was eliminated by the State's Attorney.
- One-half of an FTE was moved from the Treasurer's General Fund budget to the Treasurer's Automation Fund.
- A 3% reduction in State Income Tax, compared to the projected FY 2009 total.
- A 3% reduction in general sales tax revenue compared to projected FY 2009 totals.
- A 3% reduction in Public Safety Sales Tax revenue compared to the projected FY 2009 total.
- Jail Rental Income will decrease nearly 6% but will continue to be a major revenue source for the General Fund.
- Animal Control contracts to increase in accordance with the Consumer Price Index for All Urban Consumers (December 2007 to December 2008), which was 0.1%.

- A 5% increase in aggregate insurance premiums, with the increase split evenly between employees and the County.
- IMRF contributions increase from 10.95% to 11.89%; however, the increase is budgeted for 11 months since pension costs are calendar year-based. This results in a fiscal year projected cost for IMRF of 11.82% of eligible payroll costs.
- SLEP contributions increase from 16.56% to 18.11%; however, the increase is budgeted for 11 months since pension costs are calendar year-based. This results in a fiscal year projected cost for SLEP of 17.98% of eligible payroll costs.
- The County will include a 3.5% contingency line item in its General Fund. This is a shift in strategy from previous years, where the County has budgeted a 5% contingency.
- A new position of Human Resources Director, approved by the Board at its October 2009 meeting, will be funded for 11 months in fiscal year 2010.
- The State will reimburse all salary reimbursement programs in such a way that the revenue can be booked in FY 2010.
- Overtime costs are reduced by a minimum of 5% year-over-year and more on a case-by-case basis.
- Full-time nonunion employees will receive no general salary increase. However, the budget funds the newly revised and downsized merit compensation program for those who qualify. It is important to note that negotiations with several bargaining units are ongoing or planned, so the departmental budgets do not include personnel costs sufficient to cover any potential wage increases.
- The budget does not include any new debt. It assumes continued debt service payments, on their original schedules, for the McKenzie Building renovation and Justice Center construction projects. This could change during the fiscal year, however, as the Board will consider capping the Pekin Landfill at an estimated cost of \$4 million. The majority of those costs, as of budget time, are likely to be covered by local funds through the issuance of long-term debt.

General Fund Overview

General Fund revenue is projected at \$21.18 million, a decrease of 1.3% from the original fiscal year 2009 budgeted projection of \$21.46 million. General Fund expenditures are projected to decrease 3.8% to \$22.57 million, resulting in a projected use of General Fund balance of nearly \$1.4 million. However, because of conservative revenue estimation, it is very unlikely that the County would spend \$1.4 million of its fund balance. Some use of these reserve funds, however, is likely without a rebound in consumer spending and overall economic activity as the most recent economic indicators signal a continuation of the local and regional downturn. The County's General Fund balance is projected to exceed \$14 million at the conclusion of fiscal year 2009, including more than \$2 million in restricted fund balance. This level of fund balance is healthy, yet not excessive given the difficulty of accurately projecting some revenue sources and the divergent number and elasticity of those revenue sources. In an uncertain economy, it is particularly important to maintain sufficient reserves. A healthy fund balance is critical for cash-flow purposes and to give the County resources to deal with economic downturns and emergencies. Particularly given the fact that Tazewell County has adopted

PTELL, or the Property Tax Extension Limitation Law, which limits the County's ability to increase property taxes, it is important the County continue to maintain a healthy unreserved General Fund balance. It is also important to continually monitor the availability of other revenue sources to fund ongoing operations. The biggest unknown in the Fiscal Year 2010 budget is what impact the State budget crisis will have on local government generally and Tazewell County specifically. If the State of Illinois further reduces funding, be it grant, salary reimbursement or intergovernmental revenue (local government distributive fund), the County will likely have to respond. While impressive prior fiscal stewardship, including maintaining adequate reserves, has afforded the County the near-term opportunity to take less painful cost-cutting steps than some of its counterparts, the County is by no means out of the woods. Continued erosion of major revenue sources and cuts by the State are two real risks that would likely require more painful cost-cutting measures.

It is important to note that several union contracts are currently being negotiated or, in the case of the Correction Officers, an arbitration decision is pending. Any changes in wage rates for those work groups are not reflected in the respective personnel line items, with the exception of the Correction Officers, where the County's arbitration figures were used. If the arbitrator selects any of the union's wage proposals, a transfer of funds will likely be required to cover those costs. Capital spending, with the exception of transportation, technology and grant-funded capital investments, was reduced by 50%.

All Funds Summary

Total revenue in all funds is projected at \$50.96 million, down 0.3% from \$51.1 million budgeted in fiscal year 2009. Total expenditures across all funds are projected at \$55.15 million, up 0.9% from \$54.67 million budgeted in fiscal year 2009. Despite a projected all-funds deficit of nearly \$4.2 million, Tazewell County has historically realized revenue beyond its projections while expenditures historically are less than projected, particularly in the capital projects and contractual services line items. Also, the fact that fee funds not under the control of the Board are reflected in these figures should be recognized.

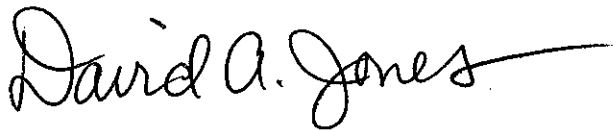

The bottom line is that any time a non-structural approach to weathering a downturn is taken, it requires a high level of diligence and monitoring to ensure that the steps taken are sufficient to maintain fund balances and long-term economic sustainability while delivering quality services to the public. Not all decisions made in recent months are popular—particularly those that impact our employees—with certain stakeholders, but they will prove to be important decisions that afford the County the opportunity to maintain its reputation as a high-quality organization that provides a high level of service with one of the lowest property tax rates in the State. There is much more work ahead, as pension costs, the short-term threat of deflation, and a weak economy will likely be carryover challenges for the Fiscal Year 2011 budget.

This budget reflects funding for basic historical service levels and factors in an uncertain economy, particularly in the area of consumer spending, which the County relies on heavily to fund its operations. I want to thank elected and appointed members of the

management team and their staffs, including the Board Office staff, for their hard work while preparing this budget. I would also like to thank the standing committees, Chairman Neuhauser and the Finance Committee for their roles in helping shape this document. I am particularly appreciative of those department heads, both elected and appointed, who took the February 2009 memo seriously and responded with new cost-saving ideas and their full cooperation. Several met with their staffs to communicate the issue and explore cost-saving ideas. I would also be remiss if I didn't acknowledge and personally thank Vicki Grashoff, County Auditor, whose attention to detail, institutional knowledge and budget skills were critical in the preparation of this document.

Please contact me if you have any questions or would like to discuss the budget further.

Respectfully Submitted,

A handwritten signature in black ink that reads "David A. Jones". The signature is written in a cursive style with a long horizontal flourish extending to the right.

David A. Jones
County Administrator

The Mission of Tazewell County Government is to provide services authorized by law through responsible stewardship of available resources keeping the people first in all decisions.
