* The Contingency Reserve budget line is for unforeseen obligations and future needs. The contingency funds would be available to meet financial obligations during the fiscal year that may occur if budgeted revenue amounts are not received at the level expected, or for other future needs in support of unit activities.

** A deficit exists when a unit has an overall negative fund balance (less than zero carryover funds). The deficit may be short-term (non-recurring) or long-term (recurring or structural). A short-term deficit is one that can be eliminated in 1-3 years with minimal disruption to unit operations. An example of short-term deficit would be one resulting from the VSIP retirement/resignation program. A long-term, recurring, or significant deficit may require more significant organizational changes. The amount entered above is to eliminate a deficit according to the Deficit Elimination Plan and would remain unspent in the trust account.
