90 Day Warranty on all manufacture's parts. Any issues found to be the result of a faulty device, will be replaced at no charge to the customer FOR COMPONENTS ONLY, A discounted rate of ½ (one half) of current labor charge will be applied to this scenario

Special Warranty Disclosure - All warranties are void if another vendor services a THE installed system. Any devices installed, requiring special equipment, the special equipment costs will be the responsibility of the customer for any warranty issue.

IT Disclosure – Teufel Hunden Electronics is not responsible for Information Technology issues, when managed by a separate entity. All issues that cause a loss of time, productivity, or damage to equipment will be charged to the customer at Time and Materials rate. This is a separate charge, outside of the scope of work of the job. THE will provide information and scheduling to meet the needs of the IT department. If, for any reason, the IT department (provided by the customer) is not prepared, missing equipment, or has misconfigured their system and causes THE additional calls/site visits or additional meetings, THE will charge these costs to the customer. The charges will be charged at Technician Rate or Engineering Rate. If the project must be reengineered, the changes will be billed separately at an engineering rate.

3rd Party Disclosure – Teufel Hunden Electronics will not be responsible for departing location, under conditions outside of the control of the technician. Any additional time on site, will require a change order or service ticket, under conditions including, but not limited to: excessive hold times, improper program or function of system provided by others, faulty equipment, site access restrictions, miscommunication outside of the control of THE personnel, sudden change in customer availability, changes to job outside scope of work, lack of parts upon scheduled date of job, or return trips due to lack of necessary equipment or paperwork not being provided by others. THE will also not be responsible for code violations, designed or specified as it pertains to installation, service, or inspections on behalf of the 3rd party contractor. The 3rd party contractor will be responsible for implementing all pertinent codes by design, specifications, service, or inspections agreements with their own customers.

- Bid Review Option: Projects with logistics or other issues, which cause the start date to be 185 days or more past the acceptance
 of the job, may be eligible for a bid review. Any cost increases will be added as a change order to the original accepted project.
- Changes to Jobsite, or job Procedure: Any bid project, which deviates from the original environment for which the bid was
 placed, will require a change order to accommodate for the additional time it costs our employees. Examples include (but are not
 limited to); drastic changes in staging areas, excessive moving of storage or parts, changes to security procedure, changes to
 parking, changes to safety policy that may require additional personnel or parts, changes to the area of work that affects
 accessibility, logistics issues which cause the cost of labor increase, changes in pandemic protocols, or anything else which
 affects how the job was bid for.
- Schedule Priority: Delays made as a result of any issues on behalf of the 3rd party entity, may result in a lower priority of the installation or service. This is in no way punitive to the customer, but rather a matter of keeping to previously agreed upon start dates and deadlines for other jobsites. THE will do its best to accommodate changes to the schedule.

THE will program all equipment, as stated in the scope of work. If there are additional program requests, they will be performed as a service call or a change order. The customer may choose to have THE manage the system remotely, for which no on-site systems administrator will be required to monitor or maintain equipment. The agreement to have THE manage the system remotely is referred to as the "Remote Management System" agreement. RMS agreements shall have a separate contract. If customer provides remote access to the system and agrees to the IT security agreement (as stated in the terms of the RMS agreement), THE will provide one year of RMS to new installs, which will apply a discount to all service and install parts during that period.

All quotes to customers with active RMS agreements, reflect the discounted rates listed in the contract. For new installs, that include this agreement, the discount rate applied is 10% for manufacturers software service agreements, and 15% on service and install parts. Additional terms of service apply.

THE will not be responsible for equipment or system integrity, if a competitor company is allowed to interact with any component of that system or its ability to communicate. Any access given to a competitor company to THE installed equipment will void all warranty commitments, and may incur additional charges to repair, or resecure the equipment. If a competitor company manages the IT communications, a non-disclosure and non-compete agreement must be signed, as there will be THE specific programming parameters and proprietary information contained within the system.

Unless otherwise agreed or stated, all engineering fees are waived upon signed agreement. All engineering documentation, which does not contain THE proprietary information, copyrighted information, or vendor specific agreements become the property of the customer upon completion of the installation.

If service to the equipment is severed, THE must be notified of the change in service (prior to allowing another provider to access the system) to relinquish passwords and access of the system as well as to provide THE the opportunity to remove intellectual property from the system. Any damage or theft of intellectual property to another company, may be considered damages to THE.

In the case of systems upgrades, THE is not responsible for failures of old equipment

If the system is a takeover, from another company, THE will not be responsible for the previous providers workmanship or misconfigured components or programming.

THE is not responsible for IT security unless otherwise stated or agreed upon, or in the case where THE is the IT service provider.

THE is not responsible for customer misuse, improper maintenance, or damage of equipment; especially that which leads to a security or safety breach of the customer facilities, equipment, or data.

THE is not responsible for damage, due to acts of God, terrorism, burglary, vandalism, or other events that cannot be controlled by THE

THE is not responsible for other vendors equipment failure.

Scope: Teufel Hunden Electronics (THE) agrees to provide the services and/or equipment described herein, without liability and not as an issuer in a professional and workmanlike manner for the client, listed in this quote. Electronic Monitoring, Service, or Remote Services shall be subject to the execution of a separate Contract.

Interruption of service/deadline: THE is not responsible for delays or interruption of service/installation, caused by (but not limited to): strikes, riots, acts of God, infrastructure failure, or other event beyond the control of THE.

Payment Delinquency; Interest: In the event that payment due, is greater than ten (10) days delinquent, THE may impose and collect interest, at a rate of 1.50% per month (18% per annum), or the highest amount allowed under law, whichever is less.

Non Payment (default): If a client fails to pay for their installation within 183 days from the date of completion (as determined by THE, and not by the customer, as it pertains to the scope of work listed in the quote only), or the customer becomes insolvent or makes an assignment for the benefit of creditors, or a petition is filed against the client under the Bankruptcy Act, or if any representation, warranty or financial information made or submitted by the client shall be untrue or underperformed in any material respect, the entire amount due and payable. In such an event, the client authorizes THE to immediately, and without restriction, to enter the premises and remove all equipment (which has not been paid for). Removal of the equipment shall not be considered to constitute a waiver of any rights under the terms of agreement, nor is THE liable for any "normal" damages to property or other equipment associated with the installation, as a result of removing the equipment.

Third Party Indemnification: Customer agrees to defend, indemnify, and hold harmless THE, and it's owners/shareholders/directors/officers/employees/affiliates against any and all third party claims, losses, damages, and liabilities; including costs, expenses, and attorney fees, asserted against or suffered by THE, by reason of, arising out of, or in any way related to, in whole or in part, any death, sickness, disease, accident, bodily injury, property damage, and/or economic loss arising out of customers acts, omissions, or negligence; provided. Customer's duty hereunder shall not arise if such death, sickness, disease, accident, bodily injury, property damage, or economic loss is caused by the sole negligence or gross misconduct of THE.

Informed Customer Llabilities: In the event that a customer was informed of code violations during a consultation, bid, design, service, installation, or verbal notice of deficiency by any member of THE; that customer will assume all financial responsibility for the outcome of stated deficiency. In the case of government or private inspections, it will be the responsibility of the customer to provide for the payment of fines, and additional work resulting in a failure. In the case where injury, damage to property, or loss of life occurs, THE will not be responsible for the outcome, and may testify on behalf of the injured party, as to how and when the customer was informed of the occurrence. This will nullify any confidential documentation, as it pertains to the violation in question. If the violation, in any way causes a member of THE to be injured, THE customer will be held liable for all damages associated with that injury. There is also an understanding that OSHA or any other government inspection agency, may be called to investigate any notice of violation, without injury to the customer relationship to THE. This is in place to ensure that all parties conform to regulated safety conditions.

Changes to Jobsite, or Job Procedure: Any bid project, which deviates from the original environment for which the bid was placed, will require a change order to accommodate for the additional time it costs our employees. Examples include (but are not limited to); drastic changes in staging areas, excessive moving of storage or parts, changes to security procedure, changes to parking, changes to safety policy that may require additional personnel or parts, changes to the area of work that affects accessibility, logistics issues which cause the cost of labor increase, changes in pandemic protocols, or anything else which affects how the job was bid for.

Teufel Hunden Owned Equipment: in the case that THE provides special equipment to for a jobsite, that other entities may use, it will be the responsibility of the customer (with whom THE is contracted to perform work for) to maintain that equipment. If there is any damage to the equipment, it will be the responsibility of the customer to repair or replace the equipment, at fair market value.

Asset Protection System Disclosure: An asset protection system is <u>NOT</u> a system designed, engineered, or suggested to be a life safety system. It may only be used in the absence of code required systems, and <u>NOT</u> be used as a substitute. As such, the system may not be engineered for "full protection" of assets. Teufel Hunden Electronics is not responsible for damages which may be caused by improper protection of the premises.

Mr. Chairman and Members of the Tazewell County Board:

Your Finance Committee has considered the following RESOLUTION and recommends that it be adopted by the Board:

RESOLUTION

WHEREAS, the Finance Committee recommends to the County Board to approve the selection of Heart Technologies for the fiber infrastructure project, and wireless internet projects at the Justice Center and McKenzie Building; and

WHEREAS, Tazewell County has a fully managed IT services agreement with Heart Technologies; and

WHEREAS, subsequent to the November 2023 cyber attack, Heart Technologies has been systematically reviewing the technology infrastructure used in the County's facilities and making recommendations for updates; and

WHEREAS, as part of that process, Heart Technologies has completed reviewing the equipment and fiber used in the downtown Pekin campus and recommends the upgrades provided in the attached quotes; and

WHEREAS, these projects will update the switches within the buildings, the fiber connecting the equipment within the buildings, and the wi-fi access points in the McKenzie building and Justice Center; and

WHEREAS, the \$171,718.02 for the three projects is available in the IT department's General Fund budget; and

WHEREAS, this purchase is not conducive to competitive bidding based on the following:

- 1. The existing contractual relationship tasking Heart Technologies with maintaining the security and integrity of the County's IT environment; and
- 2. preparing a proposal requires detailed knowledge of Tazewell County's IT environment, which takes significant time to evaluate, and the release of the information would jeopardize the security of the system, making it exempt from disclosure under Section 7(1)(o) of the Freedom of Information Act, and

WHEREAS, remaining technology infrastructure projects include providing a recommendation on upgrading the fiber connections between buildings and upgrading technology infrastructure at the Tremont campus.

THEREFORE BE IT RESOLVED that the County Board approves the recommendation and authorizes the County Board Chairman to sign the agreements with Heart Technologies in the amount of \$171,718.02.

BE IT FURTHER RESOLVED that the County Clerk notifies the County Board Office, Finance Office, Treasurer, and Auditor of this action.

APPENDIX E - OVERTIME GUIDELINES

1. Eligibility for overtime:

- A. No Officer is eligible for overtime (2) shifts after their regular shift when calling in sick.
- B. No Officer will be called for overtime on the weekend before/after their week off. A week can consist of any combination of P/D's, Comp Days, Vacation days, and or Trade days (a week is considered 5 consecutive days).
- C. An Officer is eligible for overtime before and after they have taken a P/Day, Comp Day, Vacation day, Trade Day, But Can Not Be Forced.

2. Callout procedure will be as follows:

- A. The first voluntary overtime callout of the fiscal year will be by seniority. From then on it will be on a rotation basis starting at the top with the first eliqible officer.
- B. A "yes", "no", or a "force" will rotate you to the bottom of the list.
- C. A "no contact" or not being eligible keeps you in your present position.
 - D. The results of the overtime callout will be entered in the computer immediately.
- D. When contacted for a voluntary overtime an officer may indicate a willingness to work a four hour portion of the overtime if no other officer voluntarily accepts the full eight (8) hour shift. The decision to allow an officer to voluntarily work four (4) hours of the overtime rests with the employer. The member will be informed of the employer's decision once they have completed their efforts to find a volunteer for the full eight (8) hour overtime shift. If multiple officers volunteer to work four hours priority shall be given to the officer who volunteers first. The parties agree that the Employer will favor allowing an officer to work four (4) hours of overtime on a voluntary basis to prevent the forcing of eight (8) hours on another employee. If the employer rejects the request, they shall have a reasonable basis.
- E. The employer will allow the splitting of a voluntary shift. The split will be four (4) and (4) hours. The officers who wish to split a voluntary shift must commit to do so at the first contact with the employer. Any officer who affirmatively commits to working four (4) hours of overtime on a voluntary basis, as described in paragraphs D and E, will be responsible for completing that work assignment and failure to do so may result in discipline.

3. The forcing procedure will be as follows:

- B. The Officer with the least amount of seniority will be forced first. Ties go by seniority. Eligibility will be determined by the last date forced, not the number of forces.
- C. Correctional Officers released off the FTO program will be placed at the bottom of the rotation call out list.

- D. Shift Command will leave a voice mail on an incoming Officer's phone letting them know they have been forced for overtime. If the Officer does not receive the voice mail they will be notified once they arrive for their scheduled shift.
- E. An Officer is not eligible to be forced (2) shifts after their "Friday" shift unless deemed necessary.
- F. A scheduled Personal Day, Comp Day, Vacation day and or Trade day will take precedence over an Officer's "Friday" or an Officer who volunteers to work on their weekend.
- G. An officer may call in to accept the forced overtime of another officer if the notification to the Employer of such change is made within at least one (1) hour after the force has been issued and no less than one (1) hour before the beginning of the shift on which the forced overtime will be worked.
- If an Officer is forced to work an 8-hour shift immediately following the shift H. said Officer is currently working, the Officer who is forced may reach a voluntary agreement with another Officer to split the "forced shift" into two equal four (4) hour shifts. The Officer forced to work the 8-hour shift after the Officer's current shift must work the first 4-hour increment of the forced shift, and another Officer may then agree with the forced Officer to work the second 4-hour increment of the forced shift. Any agreement to split the forced shift must be reported by the forced Officer to the JOS on duty at the beginning of the forced shift, and the forced Officer must provide the JOS with the name of the Officer who will work the second 4-hour increment of the forced shift. At the start of the second 4-hour increment of the forced shift, both the forced Officer and the Officer who has agreed to work the second 4-hour increment of the forced shift shall present themselves to the JOS on duty to verify that the Officer who agreed to work the second 4-hour increment is present in the jail and ready to work, at which time the JOS will grant the forced Officer permission to go offduty and leave the jail. The forced Officer will not be allowed to cease working the forced overtime shift until the Officer who agreed to work the second 4-hour increment of the forced shift is present inside the jail, in uniform, and ready to work and the forced Officer has been granted permission to leave by the JOS. If the Officer who agreed with the forced Officer to split the shift does not show up to work at the start of the second 4-hour increment of the forced shift, the forced Officer may not go off-duty and may not leave the jail, but must instead continue to work the second 4-hour increment of the split shift.

If the forced Officer leaves the jail before the Officer who agreed to work the second 4-hour increment is present inside the jail, in uniform, and ready to work, the forced Officer shall be subject to discipline for abandoning his/her post, up to and including termination of employment. Except only in cases of on-duty injury or with the written permission of the JOS on-duty based on a personal or family emergency, if, after the commencement of the second 4-hour increment of the forced shift, the

Officer who agreed to work the second 4-hour increment of the forced shift leaves the jail at any time prior to completing said second 4-hour increment of the forced shift, said Officer shall be subject to discipline for abandoning his/her post, up to an including termination of employment.

The Sheriff, Jail Superintendent, Assistant Jail Superintendent, or any JOS so authorized by the Sheriff and/or Jail Superintendent, may reject the splitting of the forced overtime shift at his/her discretion based on the current staffing needs of the jail, which discretion may not be unreasonably exercised under the circumstances.

Any voluntary agreement to split a forced shift made between the forced Officer and another Officer shall not in any way alter the normal rotation of overtime callout as outlined in this Contract. The Officer who voluntarily agrees to work the second 4-hour increment of the split shift shall not be rotated to the bottom of the call-out list based on the employee's agreement to work the second 4-hour increment of the shift.

- 4. The Holiday overtime will be called out separately and logged separately.
- 5. Overtime guidelines are subject to change in accordance to the operational needs of the Tazewell county justice Center.

Tazewell County - September 2024 Resolutions Sale Accounts with Potential Equity

TREASURER: The sale accounts listed below *may* have some equity related to the principles stated in Tyler v. Hennepin Cnty., Minnesota, 143 S. Ct. 1369 (2023).

We suggest you set aside the Potential Equity amount shown in the event a claim is made by the prior owner.

Our calculations are based on the limited information we have. We compare the County Auction proceeds to the final redemption amount. There may be additional taxes due for the current year and/or forfeitures that were not part of the original certificate. There may also be additional costs that we do not have in our data. These are only estimated amounts. Any sale accounts not shown on this report do not have potential equity, meaning the County Auction proceeds are less than the redemption amount. If no accounts are shown, then no current sale accounts have potential equity.
